

CALL FOR PAPERS

Special Session

„Entrepreneurship in Engineering Education 2021“ (EiEE'21)

@ ICL2021, September 22–24, 2021; Dresden, Germany
24th International Conference on Interactive Collaborative Learning &
50th IGIP International Conference on Engineering Pedagogy
<http://www.icl-conference.org/icl2021>

Title	Acronym
Entrepreneurship in Engineering Education 2021	EiEE'21

Overview

Entrepreneurship in Engineering Education is no longer a contradiction but rather the requirement to develop innovative market offers and place them successfully on the market. Therefore, companies need people who are able to combine different disciplines into a new whole, such as technology and business administration.

Therefore, the 6th edition of the Special Session Entrepreneurship in Engineering Education 2021 (EiEE'21) provides an opportunity for the engineering education community to debate and share ideas, approaches, developments and experiences.

Topics of interest for EiEE'21:

- Entrepreneurial education on the secondary and tertiary education level (goals, contents, approaches)
- Developing entrepreneurial education models
- Developing, supporting and evaluating entrepreneurial mindsets, attitudes and creativity in an educational context
- Novel use of digital technologies for entrepreneurial education
- The use of innovation management tools in the context of entrepreneurial education
- Embedding engagement and entrepreneurship across education and research
- Incentivizing and enhancing entrepreneurship activities among students and academics
- The management and support of student & academic entrepreneurship and research commercialization
- Dealing with complex real-world challenges (e.g. viral threats, food security, sustainable development) from an entrepreneurial education perspective

Program Committee

Chair(s)

- 1) Stefan Vorbach, University of Technology Graz, Austria, stefan.vorbach@tugraz.at
- 2) Jürgen Jantschgi, Higher College for Engineering Wolfsberg, Austria, juergen.jantschgi@htl-wolfsberg.at
- 3) Gerald Steiner, University for Academic Continuing Education Krems, Austria, gerald.steiner@donau-uni.ac.at

Members

- 1) Martin Glinik, University of Technology Graz, Austria, martin.glinik@tugraz.at
- 2) Wolfgang Pachatz, Austrian Federal Ministry of Education, Science and Research & IGIP Austria, Austria, wolfgang.pachatz@bmbwf.gv.at
- 3) Axel Zafoschnig, Bildungsdirektion Kärnten & IGIP Austria, Austria, axel.zafoschnig@bildung-ktn.gv.at

The organizers are also founders (chairs and members) of the new IGIP Working Group „Entrepreneurship in Engineering Education (EiEE)“ -> http://www.igip.org/IGIP_working-groups_EiEE.php . IGIP working group members to present the results of their activities as part of the Special Session.

Please share in your network!

We are looking forward to receiving many submissions and starting this new journey with you!
