

Call for Special Track Proposals

Website: <http://www.icl-conference.org/>

The special track chair on behalf of the International Conference on Interactive Computer Aided Learning (ICL) 2009 organizing committee invites proposals for special tracks to be organized as special item of the ICL conference. The *IC* is an interdisciplinary conference which aims to focus on the exchange of relevant trends and research results as well as the presentation of practical experiences in interactive computer aided learning. The purpose of special tracks is to provide an interdisciplinary forum for international scientists and practitioners to present and discuss interesting research ideas and finding on specific and emerging topics in web-based learning.

The ICL Program Committee invites researchers from industry and academia to take this opportunity and submit Special Track Proposals on emerging or hot topics in the scope of the conference. All proposals will be reviewed and evaluated by the ICL Organizing Committee. Workshop attendees have to register and pay for the full ICL conference. The special track chairs are responsible to organize their own program committees and to administer the review process in order to guarantee contributions of high quality. The ICL team provides the special track chairs access to the paper submission and review system. All accepted paper will be published in the ICL proceedings.

Important Dates

Special Track Proposals Submission Deadline: March 22, 2009

Notification of acceptance: March 30, 2009

Distribution of accepted special tracks CfPs: April 15, 2009

Submission deadline for special tracks: May 29, 2009

Camera-ready Paper Submission: September 10th, 2009

ICL2009 conference: September 23-25, 2009

Special Track Requirements for submission

Special track proposals should be no longer than 3 pages and should include the following information:

- General information:
 - Names, affiliations, and a short bio of the organizers (we encourage international teams of organizers from different institutions)
- Information of the special track:
 - Name of the special track
 - Special track topic
 - Relevance of the special track to the conference
 - Target audience: who might be interested in the special track and why
 - Expected number of participants
 - Goals and format (oral presentations, posters, etc.)

- A draft of the special track's call for papers:
 - A list of specific topics of interest
 - Important dates (proposed submission deadline; proposed notification of acceptance)
 - URL of site to host the special track information
 - Preliminary list of the Program Committee with their affiliation
 - A description of the paper reviewing and selection process
 - Expected duration of the special track (half a day or a full day)

Submission

Please email your proposal as a PDF attachment directly to SpecialTracks@icl-conference.org
